

Introducing the RC40: Enterprise-Grade Mobility, Designed for the Modern Workforce

As a leader in 5G network communications, Askey Computer is proud to unveil the RC40—a rugged handheld mobile computer built to empower highly mobile workers and retail associates. The RC40 combines enterprise-grade performance with a user-friendly design, enabling seamless access to applications and critical information wherever the job takes them. Packed with essential business features and delivering the sleek, smartphone-style experience your team craves—all at an accessible price point—the RC40 is the smart choice for efficiency, connectivity, and productivity

Features/Benefits Customer Messages

- **Premium level features affordably**
- Long operating system support – security, functionality
- 6 in. HD display—easy to read in bright sunlight – enables data entry with a bare finger or light/medium weight glove
- Waterproof, dust-proof, can handle 6 ft drops to concrete without added boot accessory, cold, heat and tumble tested
- Choice of data collection scan engines – standard or flex range near-far scanning solutions
- Qualcomm architecture for multi-tasking demanding applications
- Comprehensive wireless connectivity – 5G with private 4G/5G and CBRS, Wi-Fi 6/6E for high speed, low latency
- **Simplify handheld deployment, configuration, and ownership**
- EZ Suite license free SW tools to simplify out-of-box error free configuration (EZ Clone) and tools to simplify integration of data collection without extra application programming (EZ Wedge), and flexible push to talk communications (EZ PTT)

Improve productivity of every task

- Field changeable, quick charging battery pack for uninterrupted work
- Purpose built productivity enhancing accessories

WHATS NEW

Qualcomm QCM4490 Kryo Octa-core,@2.4GHz

Build in powerful, efficient processing for advanced IoT device computing tasks.

Superior future-proofing

Superior future-proofing and return on investment with built-in support through Android 18.

6 in Full HD TFT 600 NIT LCD Display

Operate in any kind of lighting and weather conditions using fingers, gloves, or stylus.

Choice of data collection options

Choose between standard range (arm's length) scanning or advanced FlexRange scanning up to 60 ft.

Next-gen wireless connectivity

5G connectivity with private 4G/5G and CBRS and Wi-Fi 6E for multi-gigabit speeds, extended range, and low latency.

EZ Suite Software to make Enterprise computing-Simple

No charge SW solutions like EZ PTT, EZ Clone and EZ Wedge to simplify configuration settings and rapid deployment.

Qualifying / Objection Questions

Q: Are you using or considering consumer cell phones for your workforce?

A: Enterprise rugged mobile computers offer lower total cost of ownership (TCO), improved productivity, task accuracy, and higher return on investment (ROI). The RC40 ensures reliability with long-term OS support, security updates, and rigorous durability testing. Integrated barcode scanners, purpose-built accessories, and field-replaceable batteries maximize efficiency. With Wi-Fi 6/6E, 5G, CBRS, and private 5G, communication remains seamless. EZ Support provides 12 months of coverage, priority tech support, fast repairs, and extended service options to keep businesses running smoothly.

Q: Do you believe switching devices is costly and time-consuming?

A: For the price of a consumer phone, the RC40 offers more features, boosts productivity, and reduces costs. It runs on familiar Android for easy training, and EZ Clone simplifies deployment at any scale. Unlike short-lived consumer phones, the RC40 stays available for up to 3 years, plus 3 more years of service and support.

Q: Is Askey new to the market?

A: Askey, a leader in networking and telecom for 30+ years, collaborates globally on IoT, smart transportation, and infrastructure solutions. For the last 20+ years, Askey has manufactured more than 21 million rugged mobile solutions for the most recognizable brands in enterprise mobile computers. Askey now offers the RC40 directly, giving businesses the benefit of working with the manufacturer.

**The Askey RC40 is the affordable rugged high performance
mobile computer alternative**
